Declaration of Authorship

Eigenständigkeitserklärung / Versicherung zur selbständigen Leistungserbringung.

I hereby declare that I have composed the present thesis "Investigating Task Granularity in Multi-Agent Systems for the Generative Creation of Multimodal Artifact Sets" independently and without the use of any sources or aids other than those stated. All passages taken verbatim or in substance from published or unpublished works of others have been identified as such. This thesis has not been submitted, either in the same or a similar form, to any other examination authority and has not yet been published.

Use of AI-based tools. In accordance with the chair's guidelines, AI-based tools were used to support readability, structuring, research and software engineering. The author bears sole responsibility for the entire content of this thesis, including all claims, data and citations, which were reviewed and verified by the author. A detailed account of the tools used and their purpose is provided in **??**.
